## Did you know?

An SPP member reached out and we are attending a tradeshow in their community. Do you have an event that SPP could attend. Let us reach out to help educate the people of your community or industry. ❖

Follow our blog to see all of our money saving tips, and best of the blogosphere in your inbox. ❖

## Can I help you?

As you know, Saskatchewan Pension Plan (SPP) is a simple easy way for your employees to save for the future. It's as easy as payroll deductions.

It may have been a while since you and your employees have had the opportunity to review SPP fundamentals. An information session would give your employees an opportunity to ask questions about their plan and understand the limits and transfer options of SPP. I would be happy to come out to your company staff meeting, or a lunch hour brown bag meeting – even after hours! Understanding how they are saving for their future can help reduce financial stress and a stress free workplace is a healthy workplace.

Please contact me to set up a review meeting, when it works best for you and your team. Reminding your staff of this great benefit your company offers to them is another good reason why they are working for you and not someone else! ❖

## Comments are welcome!

Your comments about our customer service are always appreciated. We are always looking for better ways to provide service to you and your company. Submit your enhancement comments to [businessplan@saskpension.com](mailto:businessplan@saskpension.com). ❖

## What do you have to say?

SPP has great testimonials from some of our Business members but we are always looking for more. SPP values your input and it is a great opportunity to tell your peers your SPP story. If you or your employees would like to submit your comments about the Plan, email Gail at [businessplan@saskpension.com](mailto:businessplan@saskpension.com). ❖

## Celebrating 30 years

“What we most want to celebrate over the coming year are the people, our members. I am always humbled by the sheer range of people we've helped. Farmers, artists, tradespeople, small business owners, just to name a few. These are people who will now have a more comfortable retirement because of this Plan. That's what makes all of us at SPP proud of our jobs.”

Katherine Strutt, General Manager - SPP ❖
