Message from Gail

What a great way to start the new year by announcing these exciting changes at Saskatchewan Pension Plan (SPP)!

What do the changes mean for you and your staff? I'd be happy to come and share how the changes impact each member if you have time at your next staff meeting. Give us a call today - 1-800-667-7153. ❖

Stretching the limit!

It's official. As of January 29, 2018, the annual maximum contribution for SPP is \$6,000, subject to available RRSP room. The Board of Trustees and management has worked hard for this change.

What's even more exciting is that the limit will now be indexed and will change each year on January 1. Members can take advantage of the increased limit for the 2017 tax year.

Other changes announced as part of the Act and Regulations proclaimed on January 29, 2018 were:

- Enabling SPP to offer a variable benefits as a new option for members at retirement. This product is similar to a prescribed RRIF and SPP hopes to have it in place early in 2019.
- The initial refund period for new members is reduced to 60 days from six months effective immediately.
- Provision for members to object to a marital division of their account. ❖
