SPP offers two investment funds - a balanced fund (BF) and a short term fund (STF). The BF and STF have different levels of risk and different expected returns. The default option is the BF and your funds are automatically invested there unless you instruct SPP otherwise. Fund Facts are available at [saskpension.com](http://saskpension.com) or by contacting SPP.

Earnings from January 1 to December 31 were:  
Balanced fund 6.53%  
Short term fund 0.52%  
Your investment instructions are:  
Balanced Fund 100%

SPP allocates earnings to your account monthly. The compound effect of these rates result in the year-to-date return shown on the left. The table below lists the returns for each month in 2016. (%)

	BF	STF	BF	STF
