

FOR IMMEDIATE RELEASE
November 18, 2011

Saskatchewan Pension Plan (SPP) is excited about the retirement savings opportunities that the recently announced PRPP legislation will create for people who do not currently have access to a workplace pension.

SPP Board chair, Warren Wagner, stated: “The primary purpose of a PRPP should be to provide a simple, low cost retirement savings alternative to businesses and their employees.”

SPP provides a retirement savings option to businesses and individuals that is simple and easy to use and understand, has provided strong returns over the past 25 years and has done this with an annual expense ratio of 1 per cent or less.

The Plan is looking forward to reviewing the proposed legislation and working with its federal and provincial counterparts as the design of this new option progresses.
